

2nd Announcement and Call for Papers
317th PTB-Seminar
VUV and EUV Metrology (EUV2021)

On **October 19-20, 2021**, the 317th PTB Seminar "VUV and EUV Metrology" (EUV2021) will take place as a hybrid event: on-site at the historical site of the Physikalisch-Technische Bundesanstalt (PTB) in the heart of Berlin, and as a web conference. Due to the ongoing pandemic, on-site participation can be restricted. The web conference will allow you to access all the talks in a live stream, and to participate in a virtual poster session.

Topics covered:

- EUV Lithography
- EUV Nano Metrology
- Surfaces and Spectroscopy
- Optical Material Properties
- Space Instruments
- Detectors
- EUV and XUV Laboratory Sources and Instruments

Confirmed invited speakers:

- M. van de Kerkhof, ASML
- H. Enkisch, Carl Zeiss SMT
- V. Philipsen, imec
- T. Feigl, optiXfab
- S. Gissot, ROB
- K. Tiedtke, DESY
- J. Feikes, HZB
- S. Danylyuk, ILT
- A. Szelghemi, IAP
- H. Stiel, MBI

The abstract submission page is open on our website www.euv2021.ptb.de.

We welcome your submissions for oral or poster contributions until **July 30, 2021** (deadline).

Registration will open by July 9 and will end on September 15. Later registration will be possible only for online access to the conference. Registered participants will receive a confirmation for their participation (on-site or online) after Sep 15 in which the remittance of the registration fee will be requested. For online participation only a reduced fee applies. For further details, see the registration section on our website.

We thank the following companies, which already committed their support of this event.

If your company wants to support this event, please contact us for further details.
