

**1<sup>st</sup> Announcement and Call for Papers**  
**317<sup>th</sup> PTB-Seminar**  
**VUV and EUV Metrology (EUV2021)**

On **October 19-20, 2021**, the 317<sup>th</sup> PTB Seminar "VUV and EUV Metrology" (EUV2021) will take place at the historical site of the Physikalisch-Technische Bundesanstalt (PTB) in the heart of Berlin. This seminar, the sixth in a series launched in 2011, will give a forum for interdisciplinary exchange between basic and technology-oriented researchers and industrial users. The topics cover the latest results from industrial applications of EUV radiation for lithography and measurement technology to developments for space-based VUV and EUV spectroscopy and the investigation of nanostructured surfaces. The implementation is supported by the Helmholtz-Fonds e.V.

**Topics covered:**

- EUV Lithography
- EUV Nano Metrology
- Surfaces and Spectroscopy
- Optical Material Properties
- Space Instruments
- Detectors
- EUV and XUV Laboratory Sources and Instruments

**Confirmed invited speakers:**

- M. van de Kerkhof, ASML
- H. Enkisch, Carl Zeiss SMT
- V. Philipsen, imec
- T. Feigl, optiXfab
- S. Gissot, ROB
- K. Tiedtke, DESY
- J. Feikes, HZB
- S. Danylyuk, ILT
- A. Szelghemi, IAP
- H. Stiel, MBI

The abstract submission page is open now! We welcome your submissions for oral or poster contributions. **The submission deadline is July 30, 2021.**

For further information and submission of your abstract, please see our website: [www.euv2021.ptb.de](http://www.euv2021.ptb.de)

EUV2021 is planned as a hybrid event so that on-site presence, as well as online participation, will be possible. Further details will be available when opening the registration.

We thank the following companies, which already committed their support of this event.

*If your company wants to support this event, please contact us for further details.*
